Roger B. Marks
Chair, IEEE 802.16 Working Group
NextWave Broadband, Inc.
r.b.marks@ieee.org
27 January 2007

Dear P802.16g Balloting Group:

Thank you for your participation in the Sponsor Ballot of P802.16f/D6, which ran from 13 December 2006 to 12 January 2007. The numerical results were 123 Approve, 11 Disapprove, and 13 Abstain. This satisfies the numerical conditions for approval.

In its scheduled session of 15-18 January 2007, the IEEE 802.16 Working Group met and addressed the comments received. We have uploaded the resolutions, along with the editor's implementation notes, to the IEEE-SA myBallot system. In addition to the 85 comments submitted through myBallot, the 802.16 Working Group received another 131 comments directly. Comment #86 includes a PDF file documenting all 216 of these comments, including their resolutions. In the PDF, the myBallot comments are numbered 1-85, matching the myBallot numbers; the additional comments are numbered 1001-1131. Note that some changes refer to documents contributed directly to the 802.16 Working Group. These are available at [<http://ieee802.org/16/netman/16g.html#contrib>](http://ieee802.org/16/netman/16g.html#contrib).

We are requesting that the IEEE Balloting Center initiate a fifteen-day recirculation of the new draft P802.16g/D7 (file *P80216g_D7.pdf*).

Please take this opportunity to review the material. Since this is a recirculation ballot, you need respond only if you wish to change your initial vote. If you do not respond to this recirculation ballot, your last vote will be carried forward. Also, as this is a recirculation ballot, a change to "do not approve" (i.e., a negative vote) with comments shall be based only on the changed portions of the balloted document, clauses affected by the changes, or portions of the balloted document that are the subject of the unresolved negative votes.

If you have voted Disapprove, I urge you to review the comment resolutions and let us know which, if any, of your comments have been satisfactorily resolved. If you choose to cast an Approve vote, we will assume that all of them are resolved to your satisfaction.

Sincerely,

Roger Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access
